

Third goal: Good Health and Well-Being

University of Hail
Sustainable Development Goals
SDG 3: Good Health & Well-Being Report
Impact Ranking 2025

This report presents a comprehensive evaluation of the university's impactful outreach programs and projects aimed at enhancing health and wellbeing in the local community. Highlighting the university's commitment to community engagement, the report outlines various initiatives, including student volunteering programs, dedicated to promoting health, hygiene, nutrition, and family planning. By actively collaborating with local stakeholders and leveraging the expertise of faculty and students, the university has successfully implemented sustainable interventions that address critical health concerns within the community.

All activities and actions related to SDG3 in 2023 can be summarized in the following points:

- Collaborations with local and national health institutions to enhancing health and wellbeing outcomes (list attached).
- The university conducted impactful outreach programs and projects aimed at enhancing health and wellbeing in the local community (list attached).
- The university implemented sustainable interventions that address critical health concerns within the community.
- The University's Guide to Share Sports Facilities with the Local Community (list of activities attached).
- The university introduces medical services free in their clinics for all students, faculty members, staff, and their families.
- All possible mental health supports are available for student, staff, and their families.
- The university has a set of rules and regulations including smoking in university labs, offices, and other facilities. Most of these regulations are general and applied in all Saudi Universities.
